

THE ENERGY GRID

BY BRUCE CATHIE

IS IT JUST COINCIDENCE THAT THE FOLLOWING CAN BE FOUND AT STRATEGIC POINTS THIS GRID?

- ancient mystery sites - ie pyramids etc
- successful atomic bomb explosions
- nuclear breeder reactor stations
- modern hi-tech military sites - ie Pine Gap
- magnetic & gravitational anomalies
- UFO sightings
- key telecommunications sites
- unexplained phenomena
- ancient & modern religious buildings
- political sites - ie the Pentagon (USA), or Parliament House in Canberra

From the Pyramids to Pine Gap,
the harmonic geometry of the
Earth clearly holds powerful
secrets for those who know how
to use it!

Bruce Cathie is the author several books which
chart his research into this intriguing subject.

Harmonic 33

Harmonic 695 - The UFO and Anti-Gravity

Harmonic 288 - The Pulse of the Universe

Harmonic 371244 - The Bridge to Infinity

FIRST UFO SIGHTING

My life changed dramatically in 1952. This was the year that I saw my first UFO. The object was hovering over the Manukau Harbour, Auckland City, New Zealand, in the early evening twilight, and carried out manoeuvres that no known man-made vehicle could accomplish at that time. The thing, whatever it was, had an intensely brilliant white light, with a smaller glowing red light some distance from it, and for about twenty minutes held myself and other witnesses spellbound as it went through a series of right angle turns, then disappeared straight up into a clear evening sky.

UFOS AND/OR SECRET RESEARCH

Ever since that time I have collected every bit information available on the UFO phenomena. During my thousands of hours of flying I searched the skies constantly and been rewarded with many other sightings. As time went on I was informed by many other airline pilots in New Zealand that they too were sighting objects for which they could find no explanation. *It became obvious that either we were being observed by some sort of advanced vehicles coming in from outer space, or that some scientific group on earth had discovered a principle of physics unknown to the rest of us, and that secret research of some nature was being carried out.*

I AM NOW SURE THAT BOTH VIEWS WERE CORRECT AND THAT MUCH IS BEING KEPT FROM THE PUBLIC.

COVERS FOR INTELLIGENCE AGENTS

Over the years I have studied a great deal of material published by other investigating groups and came to the conclusion that no real progress could be made in discovering the purpose of UFO activity through this means. The main body of investigators have confined their activity to collating masses of sighting reports, filing them away, and then doing nothing else with the information. Several of these larger well known international groups I suspect of being nothing more than covers for intelligence organisations which gather information on public awareness of UFO activity. I would also put some of the better known individual investigators in this category.

AIME MICHEL'S RESEARCH

I decided long ago that the only way to tackle the problem would be to plot all the areas of activity and try to find some logical mathematical order in the hovering positions, or

flight paths of the unknowns. To this purpose I studied the methods of a Frenchman by the name of Aime Michel who had also endeavoured to find a mathematical order of this nature. He had had partial success and managed to find several track lines with equally spaced activity in the European area. Just when he appeared to be on something, for some unknown reason, he abandoned this line of research and publicly proclaimed that nothing could be accomplished by this method. After studying his early attempts, I considered that there was definite logic in his finding and decided that I would carry on my own research using his basic methods. I struck gold, and ever since I plotted the first two track lines, at right angles, in the New Zealand area, I have continued to progress and advance my scientific knowledge in areas which otherwise would normally be completely foreign to me.

GOVT. REQUESTS CATHIE DATA

Along the way I have taken much flack from the academic world, and from those who profess to know all the answers - that is in public. But behind the scenes it has been a different story. *Over the years I have had many direct communications from members of intelligence organisations, top scientific circles and government agencies, wishing to know what my latest findings are, and requesting copies of certain parts of my work.*

MINUTES OF ARC GRID PATTERN

Once I had established the two track lines I was able to form a complete grid network over the whole of the New Zealand area by gradually plotting onto the map the most reliable UFO sightings. *The pattern consisted of lines spaced at thirty minute intervals orientated just on six degrees displacement from true north.* Eventually two similar grids were found to be interlocked with each other creating rather a complex pattern, which could be further reduced to lines with a spacing of seven and one half minutes.

UNDERSEA AERIAL OBJECT

The next logical conclusion was that I had discovered a small section of what could possibly be a world system. The question then was how to transfer this small section onto the world sphere and accurately align it. It was then brought to my notice that a strange aerial-like object had been photographed by chance on the seabed off the west coast of South America, by the American survey ship *Eltanin*. The object was two to three feet high and had six main cross bars spaced evenly up its stem with a smaller one at the top. Each set of cross bars had a small ball at the end of each arm. A friend and I visited the *Eltanin* when it called into Auckland, and we were told by one of the scientists on board that the object was thought to be an artifact of some kind, and appeared to be metallic.

WORLD GRID PATTERN EMERGES

I had a hunch that this could be the point that I was looking for upon which to orientate a world grid, if in fact one existed. I spent some time constructing grid patterns on a plastic ball until I found a system which could be transferred onto the world surface, and aligned with the aerial-type object and the section of the grid discovered over New Zealand. I found that the patterns matched, and felt sure

then that a global system was almost a certainty.

MATHEMATICAL BASIS FOR GRID

The next step was to find the mathematical basis for the system, and this proved to be a long and arduous job; especially as I do not class myself as anything of a mathematician or a physicist. After a study of all the available information on UFO activity, I came to the conclusion that the speed of light, mass and gravity acceleration values must have some connection with the grid structure, in order to explain the extraordinary manoeuvres carried out by the strange craft.

The basic grid structure was formed by a series of great circles interlocking at various points around the earth's surface. The nodal points of the two grids, when joined by a series of small and great circles, formed what I have loosely termed polar squares around the north and south geographical poles. It was when I carried out a geometric and mathematical analysis of these sections that I found a direct connection with light, gravity and mass equivalents, in a harmonic sense. To do this I had to convert all our normal systems of measurement into a single set of units, and also convert our time measure into one that would correlate with the grid. After much thought, and a long period of trial and error, I finally discovered that angular measure, in minute of arc values, and a time unit based on twenty-seven units for one revolution of the earth, was the key to the unlocking of the grid secrets.

After that it was a long slow process to learn how to relate the values being calculated, one to the other, in order to find a logical mathematical basis for the system.

HARMONIC UNIFIED EQUATIONS

Finally, after years of work, I discovered that I could formulate a series of harmonic unified equations, which indicated that the whole of physical reality was in fact manifested by a complex pattern of interlocking wave forms. I gradually found that the harmonic values could be applied to all branches of scientific research, and atomic theory. At first I was not very sure of the results I was getting, but as time went by, more and more interest was being shown by intelligence agents, government personnel and scientists, in the work I was doing, and many requests started coming in from information. Help in my work was eventually offered from these quarters, but the catch was that I had to remain silent about my discoveries. This I refused to do, and I still continue to battle on, on my own. *Once I realised the importance of the material in my possession I considered it extremely dangerous for any small group of people to have complete control of it.*

GRID USED FOR CONTROL PURPOSES

It was only a matter of time before I realised that the energy network formed by the grid was already known to a powerful group of international interests and scientists. It became obvious that the system had many military applications, and that political advantage could be gained by those with secret knowledge of this nature. It would be possible for a comparatively small group, with this knowledge, to take over control of the world. I have continually asked these people for a valid moral reason why the information

should not be given to the world community, and so far no answer has been given. So I carry on publishing the material as I find it.

BOMB GEOMETRICS AND CIA OFFERS

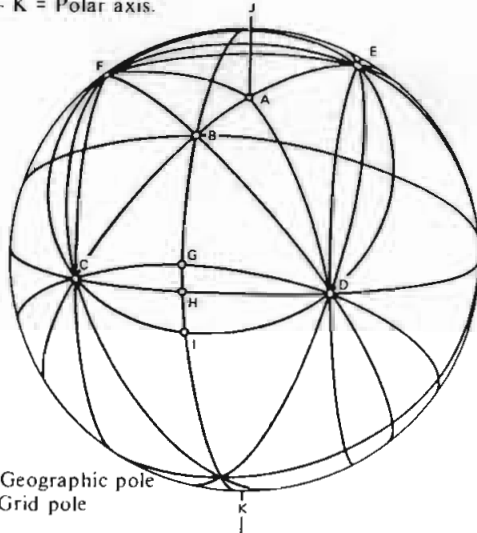

One of the most startling facts that I discovered by application of grid mathematics, was that *an atomic bomb is a device based on the geometrics of space and time. To be successfully detonated the bomb MUST be geometrically constructed, placed on, under, or over a geometric position in relation to the earth's surface, and activated at a SPECIFIC TIME in relation to the geometrics of the solar system. I found that it was possible to pre-calculate the time of various bomb tests, and the locations where it was possible to explode a bomb. When it became known that I had discovered this well-kept secret, I was offered a position by the American Central Intelligence Agency.*

The offer was very tempting but I decided that I could not sign my freedom away, and after two days I turned it down. According to the mathematical complexities of unlocking the geometrical structure of the unstable material constituting a bomb, in order to create a sudden release of energy, I realised that an all-out atomic war was an impossibility. Both sides could pre-calculate well in advance the time and positions of atomic attack. Plus the fact that only certain geometric locations could be devastated anyhow. A logical war cannot be considered under these circumstances. This could be the explanation for the proliferation of conventional weapons in modern warfare.

DIAGRAM 1

Showing relationship of grid structure to the geographic poles. Each of the two grids has a similar pattern, the interaction of which sets up a third resultant grid. The poles of the three grids are positioned at three different latitudes and longitudes.

C, D, E, F = Corner aerial positions of grid polar square. Similar to aerial discovered by the survey ship *Eltanin*.
J — K = Polar axis.

A = Geographic pole
B = Grid pole

Distance C — G — D = 3600 minutes of arc.
Distance C — H — D = 3418.6069 minutes of arc.
Distance C — I — D = 3643.2 minutes of arc

$$(3600 - 3418.6069) = 181.39308$$

$$(181.39308 \times 4) = 725.57233$$

$$\sqrt{725.57233} = 26.93645 = 2693645 \text{ harmonic.}$$

FREE ENERGY APPLICATION

Another application of the grid is in the production of energy. With the right know-how, and with a comparatively simple apparatus connected to a ground aerial system, an unlimited amount of free electrical energy can be tapped from the earth grid network. The international interests connected with the control and production of energy would certainly not want the public to become aware of this.

LASER ADVANCES SUPPRESSED

Another competitive field where the harmonic mathematics of the grid can be applied is in laser research. Apart from peaceful uses of laser beams, which are many and varied, the military application is considered more important by those in control. Most of the advances in this type of research have never been made public. A whole list of scientific areas could be shown where this new knowledge could be put to use, without stating the obvious application that would transform our communications and transport systems, and give us the means of reaching the stars.

PUBLIC DENIED KNOWLEDGE

It is not right for the public to have this knowledge, I was told. It would not be good for them. I'm sure that most would disagree with this outlook, as I do. I am only one small voice. *It is up to the scientific community themselves to open up research in all these fields, in order that all mankind can reap the benefits.*

MAP 2

Original grid map produced in 1965. The map shows a section of the grid over the New Zealand area. The small circles are positions of UFO activity. The grid lines are spaced at thirty minutes of arc. Note the frequency of sightings occurring at grid intersections.
